Mama alisema, "Nesi huwezi kumchoma mtoto wangu sindano! Mtoto wangu haumwi." Nesi akajibu, "Sindano hii sio kwa ajili ya kutibu ugonjwa lakini ni kwa ajili ya kinga. Ngoja nikueleze zaidi."

Unapokuwa na bustani, mara nyingi unaweka uzio.

Usipoweka uzio, mara nyingine inakuwa hakuna tatizo.
Lakini wanyama wakija, utasikitika sana!

Hii ni sawa na kwa watoto wako. Wanahitaji kupatiwa chanjo kuwakinga na aina zote za magonjwa.

Mtoto wako anaweza kupata ugonjwa wa kifua kikuu (TB).

Anaweza kupooza kwa sababu ya polio.

Mtoto wako pia anaweza kukakamaa kwa pepo punda na kufa. Kama mtoto wako akipata hii sindano sasa baadae hatapata haya magonjwa yote."

Mama akasema "Nesi, ninaogopa. Tafadhali mchome mtoto wangu sindano."

Chanjo ni muhimu kwa maisha yetu.
